Description

Imperium X, also known as "Imperium-X," is a slightly sativa dominant hybrid strain (60% sativa/40% indica) created through crossing the classic (City of God X The White Angel) X Future #1 strains. This powerful strain offers a soaring THC level with a super stoney high that will have you feeling locked down to the couch for hours and hours on end. The Imperium X high will settle in slowly, filling your mind with a subtle tingle that begins in the forehead before slowly inching its way forward throughout the rest of your mind and body. You'll find your mind numbed, filled with an expansive, buzzy euphoria that lifts your spirits and leaves you feeling insanely happy, although a bit out of it. As your mind flies, your body will suddenly become locked down to the couch, filled with a heavy weightiness that won't affect your mental state at all. Given these effects and its insanely high 30-37% average THC level, Imperium X is often suggested to treat experienced patients with conditions including chronic pain, chronic stress or anxiety, depression or mood swings and cramps or muscle spasms. This bud has a sweet and citrusy tropical fruit flavor with a burst of juicy pineapple. The aroma is just as intoxicating, with a blend of fresh florals accented by bright tropical fruits. Imperium X buds have oversized and fluffy, spade-shaped dark olive green nugs with vibrant purple undertones, thick red hairs and chunky, bright purple-tinted white crystal trichomes.
