Description

Perfect for any fan of potent hybrids who appreciates a truly delightful dessert-like flavor, Purple Ice Water packs a mouthwatering taste and soothing, balanced high that will have you feeling kicked back for hours on end. The taste of Purple Ice Water will leave you practically begging for more, with a creamy vanilla cake overtone with accents of sweet, fruity berries and sugary grapes.

The aroma is very much the same, although it does have added hints of fresh flowers and a touch of spice to it, too.

The Purple Ice Water high will settle in slowly, creeping in with warming waves of soothing relaxation that helps to eventually numb both mind and body. You'll feel mentally lifted with a sense of happiness that leaves you grinning uncontrollably as your body settles further and further into the couch.

This combination will eventually turn sedative, leaving you dozing off before you even realize what you're up to. Given these effects and its insanely high **31-36% average THC level**, Purple Ice Water is often suggested to treat experienced patients with conditions such as chronic stress or anxiety, depression, chronic pain and insomnia.

This bud has oversized and fluffy, [Christmas tree](#)-shaped olive green nugs with bright purple undertones, thin long orange hairs and a frosty coating of chunky, purple-tinted white crystal trichomes.
