### Description

Blooberry Z is an indica-dominant hybrid cannabis strain (approximately 60% indica) bred by Terphogz through a cross of Dankster Blooberry and Z. It features vibrant purple-hued buds with a THC content around 24% and minimal CBD (0.1%), delivering a balanced high that begins with uplifting euphoria, creative energy, and mental clarity before easing into soothing body relaxation without heavy sedation. This makes it ideal for managing stress, anxiety, mild pain, or insomnia while keeping users functional. The aroma captivates with layers of powdered-sugar doughnut sweetness mixed with sharp blueberry gas, while the flavor profile offers a candy-soft inhale of juicy blueberries backed by pungent, resinous notes that linger smoothly. For growers, it flowers in 49–56 days indoors, producing medium-to-high yields and excellent hash returns
