Description

BUBBLE BERRY DROPZ (Zkittlez × Runtz)

Dive head-first into pure candy nostalgia with BUBBLE BERRY DROPZ, the second legendary flavor in the iconic Dropz candy line.

This flawless Zkittlez × Runtz hybrid hits the scale at a screaming 29% THC, grown with obsessive precision to deliver buds so frosty they look dipped in powdered sugar.

One whiff and you're instantly transported: explosive waves of juicy berry candy, Hubba Bubba bubble gum, and sticky-sweet tropical fruit punch that flood the room like someone just ripped open a fresh bag of gummy worms.

The visual is straight fire, dense, neon-green nugs completely buried under a blizzard of glittering trichomes, with pops of deep purple peeking through like crushed berries in the mix.

Perfect for legal home growers in California, Colorado, New York, and beyond who want ridiculous bag appeal, insane terps, and that uplifting-yet-melty vibe that makes everything feel like a Saturday morning cartoons.

Hand-selected clones, built to throw monster yields and keep your garden smelling like an actual candy factory.

21+ only. Know your local laws. When you want your weed to taste like the best part of childhood... pop a BUBBLE BERRY DROPZ.

The candy revolution just got its purple pillar.
