

BLUE NERDZ

Blue Nerdz is our new top selling strain that combines Lemon Cherry Gelato and The Original Z. Blue Nerds was bred by Global Genetics. Blue Nerds is not to be confused with Nerds, which has an aka of the same name. A legacy strain with different parentage might also share the name. Naming conflicts broadly exist in cannabis, as no one group controls naming. – Leafly

Description

Blue Nerds is an evenly balanced hybrid strain (50% indica/50% sativa) created through crossing the classic [Forbidden Fruit](#) X Watermelon Z strains.

Named for its gorgeous appearance and amazing flavor, Big Nerds is the perfect balanced hybrid to help you get creative on a lazy afternoon when you don't have much of anything else to do.

Blue Nerds buds have eye-catching grape-shaped and fluffy forest green nugs with deep purple undertones, lots of super thin orange hairs and a sparkling, frosty coating of deep purple-tinted white crystal trichomes. As you break apart each glittering little nugget, you'll detect aromas of sour, citrusy lemon, sharp Granny Smith apples and fruity blueberries.

The flavor is very similar, with a bouquet of fresh fruits, including sugary blueberries, sour apples and sweet, fruity melons. The Blue Nerds high is just as delicious as its taste and smell, with a happy, soothing overtone that activates the brain and settles the body in no time at all.

You'll feel happy and focused with a boost in creativity that helps you get into the thick of work or carry on meaningful conversations with those around you.

In combination with its super high 25-26% average THC level, these effects give Blue Nerds an edge in treating ADD or ADHD, depression, chronic stress or anxiety, chronic pain and arthritis.
